Space is a big constraint in pharmaceutical industry. This makes the Horizontal Die Punch Storage System a necessity. Some of its key advantages are:

- Compact design, thereby freeing floor space
- Systematic & indexed storing of tools
- Protection from dust, dirt, moisture & mishandling
- Reduces handling of individual punches & dies. Plastic trays can be used for carrying the tooling to tablet press
- Special trays/partitions can be supplied to suit R&D requirements

TECHNICAL DETAILS

PARTICULAR	HSS 18-50/60		HSS 12-75
Number of Metal Drawers	18		12
Height of Drawer (mm)	MS - 50 / SS - 60		75
Usable Height of Drawer	35		60
Plastic Tray per Drawer	4		4
TOOLING TYPE	D	B	EU441
SETS PER TRAY	8	12	7
SETS PER DRAWER	32	48	28
TOTAL CAPACITY	576	864	336
MOC: Cabinet & Drawer	Mild Steel with Oven Baked Paint OR SS304		
Tray	ABS Plastic, Black Colour		
Dimensions - MS (WxDxH)	720mm x 720mm x 1100mm		
Dimensions - SS (WxDxH)	720mm x 720mm x 1300mm
